

FROM THE CHAIRMAN'S TABLE

September is here. As we enter the third quarter of 2024, I am sure many are reflecting asking where the year has gone. So far the year has been extremely busy for LEEASA and its director with many items being dealt with at the same time.

We have the up coming Electra Mining Africa show where we are hosting a CPD conference and a forklift competition with Lifting Africa. A lot of work and planning have gone into these events to make them a success. With many hours and many site visits being completed.

The Electra Mining LEEASA Conference will take place between the 4th-5th of September 2024 with all new topics to be presented. This included Richard Oldknow who is a international Yoke Industrial Corp representative and a member of the LEEA International Technical Committee, who will grace us with his presence and presentations over the 2 days. We are sure these will add great value.

There will be a host of other topics that will too add great value which include:

- Industry trends and digitisation – Yoke Industrial Corp
- Annual Update and concerns - Department of Employment and Labour (DEL)
- Advanced Racking and Forklift Operations in Modern Mining – ACROW
- Major Inspections and Special Assessments – CrEng
- Rescue Simulator Centre: Design and Risk Management – CrEng
- LEEA – Technical Committee - Richard Oldknow
- Deterioration analysis for rope design – Engineering concepts
- Wire Ropes – How to ascertain condition and deterioration – LEEASA
- SANS 500:2023 – Industry Concerns – Phakimisa Safety Consultants
- Continuous Professional Development (CPD) – ECSA

We also have the forklift competition at Electra Mining

ECSA

ECSA

that adds a great interactive event for LEEASA and stakeholders. We encourage all LMI's or LME's that have forklift operators with valid forklift operator licenses to attend and stand a chance to win BIG cash prizes. This includes for 1st place – R 15 000.00, for 2nd place – R 10 000.00 and for 3rd place – R 5 000.00. More information is available on our LinkedIn and the registration link is provided. This event was a great success in 2022 and we look forward to making it even bigger in 2024.

Over the past few weeks we have met with ECSA to try and resolve some issues with regards to registration and industry concerns. We are making progress on these issues however we will be able to make even more once the events are behind us and more structures are put into place.

With that LEEASA and The Department of Employment and Labour (DEL) has engaged with The Chamber of Engineering Technology (COET) to try establish a working relationship within the industry. The meeting was held a few weeks ago and we managed to establish the framework for what is required to move the industry forward. This includes the establishment of the DMR Forum which will be a forum that is chaired by the DEL and will engage periodically to work together on industry issues. We are scheduled to have the next meeting in September. We will update members on progress with regards to this forum regularly.

LEEASA is looking at trying to establish a formal trade for LMI's to formalise a qualification. This may take some time but we are actively working on it with key stakeholders to get this to fruition.

LEEASA will be advertising for a permanent employee over the next few weeks to come on and assist with day to day tasks and driving the association growth. This will be communicated and advertised to all members. We are looking for a knowledgeable individual, that has great communication and entrepreneurial skills to come on board. This is how we will be able to give more value to our members and drive growth to do more.

LEEASA has put into production our first of many inspection tools to be released to the market to aid stakeholders in their daily tasks. We have produced

LEEASA sheave gauges and PI tapes that will be put to market in the coming weeks, we are aiming for the 4th quarter of the year due to production lead times. We believe that making these tools readily available will add great value to the industry and our members. There will be more tools that are currently in R&D that will be released as well.

In the coming weeks we have a lot of work to do and a lot of progress to make. We continue to strive to add more value to our members and grow the association in order for us to do more for our members and industry stakeholders.

I look forward to updating you on progress in the next edition of Lifting Africa.
