

November is here and we are sure everyone is ready to start winding down for the year, but we all know there is one final push before we get some well deserved rest and relaxation.

We are proud to report back that our Birchwood Conference was a great success with over 80 attendees per day. At the conference LEEASA's new vision was communicated. We also had new interesting topics and training aids – including a trailer with a fully functional scaled overhead traveling crane. This will allow LEEASA to conduct mobile training on Overhead Cranes. This is just the start.

At the Birchwood conference we had the Department of Employment and Labour (DEL) in attendance. A number of issues were raised with the DEL with regards to LMI registration at ECSA. The DEL and LEEASA will be addressing this with ECSA. LEEASA also felt it was the time to open up the chat with the DEL to our members and attendees with regards to our ambition to facilitate and further develop what will be a game changer for our industry and will result in qualifying individuals receiving a qualification or trade as an LMI.

It was agreed verbally with the DEL that this qualification was a big step in the right direction and would advance the profession to where it needs to be. There is a lot of work to be carried out in order to achieve this, however we believe with roll player input and our motivation to achieve this goal will be well worth it for generations to come. Hence we are able to achieve our obligations to developing and preserving the integrity of the profession.

With that said, as most should be aware through our email communication that LEEASA has launched a number of brand new CPD course for the LMI or potential LMI. LEEASA made this decision as we identified a need for a broader scope of training, that covers all vital lifting machinery in the industry. As time rolls on LEEASA will be introducing more courses.

The new courses on offer are as follows;

1. MRT Rope Inspection. (2 day, 3 day or 5 day) (2-5 CPD

credits depending on amount of days attended)

2. Crawl Beam and Jib Crane Inspections and Testing. (1 day) (1 CPD Credit)

3. Loader Cranes Inspection and Testing. (1 day) (1 CPD Credit)

4. The LMI Legal Requirements and Responsibilities. (1 day) (1 CPD Credit)

5. Garage Equipment Inspection and Testing. (1 day) (1 CPD Credit)

6. Counterbalance Forklift Truck Inspection and Testing. (1 day) (1 CPD Credit)

The above courses have been communicated via our email newsletters. If you are a member and not receiving these emails, it is more than likely your email is incorrect in our system and requires to be updated.

These email newsletters are a vital part of our communication and value added proposition to our members, as it enables members to keep informed and get involved with the association, as they see fit.
